10-DAY COMPUTER COURSE OFFERED AT UM

MISSOULA--

An introductory course on computer programming will be offered on the University of Montana campus for community members and students from May 10 to May 21 from 5 to 6 p.m. in Liberal Arts Building Room 102. Cost of the program is \$30 and participants will receive one credit in Computer Science 299 for successfully completing the course.

The class will include elementary programming techniques using the BASIC programming language. A wide range of primarily non-mathematical problems will be written by the student and run on a time-shared computer.

Walt Briggs, UM assistant professor of computer science, will be the instructor. Interested persons should contact the UM Center for Continuing Education and Summer Programs at 243-2900 for more information or registration details.
